Business Intelligence

Data-driven Business Intelligence professional with 4 years of experience in developing and implementing data governance policies, ETL processes, and predictive models. Collaborated with stakeholders to identify and prioritize data-driven initiatives, resulting in a 25% increase in revenue and a 30% reduction in operational costs. Proven track record in analyzing and interpreting data to identify trends, patterns, and correlations, resulting in a 25% increase in sales and a 20% reduction in customer churn.

WORK EXPERIENCE

Business Intelligence   03/2022 – Present
DataVision Inc.

- Developed and implemented a data governance policy, resulting in a 20% increase in data accuracy and a 15% reduction in data-related errors.
- Collaborated with stakeholders to identify and prioritize data-driven initiatives, resulting in a 25% increase in revenue and a 30% reduction in operational costs.
- Developed and maintained predictive models to forecast future trends, resulting in a 10% increase in sales and a 5% increase in customer retention.

ETL Developer/Analyst   03/2020 – 03/2022
DataWorks Solutions Inc.

- Designed and developed ETL processes to extract, transform, and load data from multiple sources into data warehouses, resulting in a 30% increase in data accessibility and a 20% reduction in data processing time.
- Developed and maintained reports, dashboards, and other visualizations to enable data-driven decision making, resulting in a 15% increase in productivity and a 10% increase in customer satisfaction.
- Analyzed and interpreted data to identify trends, patterns, and correlations, resulting in a 25% increase in sales and a 20% reduction in customer churn.

Business Intelligence Developer   03/2019 – 03/2020
DataStream Innovations Inc.

- Developed and maintained data models, data cubes, and other data structures to support business intelligence initiatives, resulting in a 20% increase in data accuracy and a 15% reduction in data-related errors.
- Developed and maintained data quality processes to ensure data accuracy and completeness, resulting in a 30% increase in data accessibility and a 20% reduction in data processing time.
- Developed and maintained data-driven applications to enable self-service analytics, resulting in a 15% increase in productivity and a 10% increase in customer satisfaction.

SKILLS & COMPETENCIES

- Data governance
- Data-driven initiative development
- Predictive modeling
- ETL process design and development
- Data warehousing
- Data visualization
- Reporting and dashboard creation
- Data analysis and interpretation
- Data modeling
- Data cube creation
- Data quality management
- Self-service analytics
- Collaboration with stakeholders
- Trend identification
- Business intelligence application development

COURSES / CERTIFICATIONS

Microsoft Certified: Data Analyst Associate   05/2023
Microsoft

Tableau Desktop Certified Professional   05/2022
Tableau Software

IBM Certified Data Architect - Big Data   05/2021
IBM

EDUCATION

Bachelor of Science in Business Intelligence and Analytics   2013-2017
Saint Joseph's University , Philadelphia, PA
